

Personalized Career Counseling Report

Welcome Elvira Müller,

As you embark on the journey of exploring different options for your future studies, dual studies, or training, remember that learning and practical work can open up countless opportunities for personal growth and fulfillment. Just imagine the possibilities that await you as you delve into the world of knowledge and skills!

Did you know that the surname Müller is a common occupational surname in German-speaking countries, traditionally meaning "miller"? It reminds us of the power of learning a trade or profession and the impact it can have on one's life. Who knows what you could achieve through dedication and hard work?

Making a good decision about your career and studies, fueled by passion and determination, can shape a bright and successful future. So, embrace this time of exploration and discovery with excitement and confidence.

The following sections are intended to help you better prepare for your personal career counseling session. Good luck on your journey ahead!

Your prospects for a degree program:

1. Study Program: Dance Studies

Description:

Dance Studies is a program that focuses on the art of dance, including various dance techniques, choreography, dance history, and performance skills. Students will also study anatomy and physiology to better understand the body's movement capabilities. Courses may include ballet, modern dance, jazz, and cultural dances from around the world.

Why it fits you:

This program is perfect for you as it aligns with your hobby of dancing and your interest in music and sport. You will have the opportunity to deepen your knowledge and skills in dance while exploring the cultural and historical aspects of this art form.

Career opportunities:

Graduates of Dance Studies can pursue careers as professional dancers, choreographers, dance instructors, or arts administrators. For example, you could work as a dance company director, dance therapist, or dance studio owner.

Additional similar study programs:

1. Theatre Studies
2. Musicology
3. Performing Arts Management
4. Physical Education
5. Cultural Studies

2. Study Program: Sports Journalism

Description:

Sports Journalism combines journalism skills with a focus on sports reporting. Students will learn how to write compelling sports stories, conduct interviews with athletes and coaches, and report on sporting events for various media outlets. Courses may cover topics such as sports ethics, sports marketing, and sports psychology.

Why it fits you:

Given your interest in sports and ethics, this program will allow you to combine your passion for sports with your writing skills. You can explore the behind-the-scenes of the sports industry while honing your journalistic abilities.

Career opportunities:

Graduates of Sports Journalism can work as sports reporters, sports broadcasters, sports editors, or sports analysts. You could pursue a career as a sports journalist for a newspaper, television network, online media outlet, or sports organization.

Additional similar study programs:

1. Media and Communication Sciences
2. Public Relations
3. Digital Marketing
4. Broadcast Journalism
5. Sports Management

3. Study Program: Music Therapy

Description:

Music Therapy is a program that focuses on using music as a therapeutic tool to improve physical, emotional, cognitive, and social well-being. Students will learn about music theory, psychology, counseling techniques, and how to design music therapy interventions for individuals and groups.

Why it fits you:

This program combines your love for music with the ethics aspect you enjoy. By studying music therapy, you can use your passion for music to help others improve their quality of life through therapeutic interventions.

Career opportunities:

Graduates of Music Therapy can work as music therapists in various settings such as hospitals, schools, mental health facilities, or rehabilitation centers. You could also pursue a career as a music therapy researcher, program director, or private practice owner.

Additional similar study programs:

1. Psychology
2. Counseling
3. Social Work
4. Special Education
5. Occupational Therapy

Your prospects for a dual study program:

1. Dual Study Program: Media Management

Description:

The dual study program in Media Management combines courses in communication, marketing, and media production. You will learn about social media strategies, digital marketing, and content creation. Additionally, you will study media

law, media ethics, and media economics.

Why it fits you:

This dual study program aligns with your interests in Instagram and watching TV. You will have the opportunity to learn how to create engaging content for social media platforms and understand the impact of media on society. The theoretical approach to media management will allow you to analyze and conceptualize strategies for media companies.

Career opportunities:

Upon completion of this dual study program, you can pursue a career as a social media manager, marketing coordinator, or content creator. With the skills gained in media management, you will be equipped to work in various industries such as advertising agencies, media companies, and PR firms.

Further similar dual study programs:

1. Communication Management
2. Marketing Management
3. Digital Media Design
4. Public Relations
5. Journalism

2. Dual Study Program: Sports Science

Description:

The dual study program in Sports Science covers subjects such as exercise physiology, biomechanics, and sports psychology. You will learn about training methods, injury prevention, and nutrition for athletes. Practical elements include sports coaching, fitness testing, and event management.

Why it fits you:

This dual study program resonates with your passion for dancing and sport. You will have the opportunity to delve into the science behind physical activity and explore how music can enhance athletic performance. The theoretical approach to sports science will allow you to understand the intricacies of human movement and performance.

Career opportunities:

After completing this dual study program, you can pursue a career as a sports scientist, athletic trainer, or fitness coach. You may find opportunities in sports organizations, health centers, or physical therapy clinics. With the knowledge gained in sports science, you can help individuals achieve their fitness goals and improve their overall well-being.

Further similar dual study programs:

1. Exercise Science
2. Health and Fitness Management
3. Nutrition and Dietetics
4. Physical Education
5. Kinesiology

3. Dual Study Program: Music Business

Description:

The dual study program in Music Business combines courses in music production, artist management, and copyright law. You will learn about music marketing, concert promotion, and music industry trends. Practical elements include studio recording, event planning, and music licensing.

Why it fits you:

This dual study program caters to your interests in music, ethics, and Instagram. You will have the opportunity to explore the intersection of art and commerce in the music industry. The theoretical approach to music business will allow you to understand the ethical considerations and legal frameworks that govern the music business.

Career opportunities:

Upon completion of this dual study program, you can pursue a career as a music manager, record label executive, or concert promoter. You may find opportunities in record companies, talent agencies, or music festivals. With the expertise gained in music business, you can help artists navigate the industry and achieve success in their careers.

Further similar dual study programs:

1. Arts Management
2. Entertainment Industry Studies
3. Music Production
4. Event Management
5. Cultural Studies

Your prospects for a vocational training:

1. Vocational training: Event Management Assistant

Description: Event Management Assistant vocational training focuses on planning and executing events such as conferences, trade shows, and festivals. You will learn about event logistics, budgeting, marketing, and customer service. Typical course content includes event planning, communication skills, marketing strategies, and project management.

Explanation: This vocational training is perfect for you because it combines creativity and organizational skills, which align with your interests in music, sports, and ethics. You will have the opportunity to plan events that reflect your hobbies and interests, such as dance shows or charity events. Additionally, working in event management allows you to work theoretically, focusing on planning and organization rather than hands-on tasks like math or car mechanics.

Career opportunities: With Event Management Assistant training, you can pursue a career as an event coordinator, marketing specialist, or conference planner. You could work for event planning companies, hotels, corporate organizations, or government agencies. For example, you could become a concert promoter organizing music festivals or a sports event manager coordinating athletic competitions.

Further similar vocational training:

- Hotel Management Assistant
- Sports and Fitness Administrator
- Media and Communication Specialist
- Tourism Clerk
- Exhibition Organizer

2. Vocational training: Media Designer

Description: Media Designer vocational training focuses on creating visual concepts and designs for various media platforms such as print, web, and video. You will learn about graphic design, typography, image editing, and multimedia production. Typical course content includes Adobe Creative Suite, web design, animation techniques, and visual communication.

Explanation: Media Designer is a suitable choice for you because it allows you to express your creativity and passion for aesthetics through visual storytelling. Your interest in watching TV and Instagram indicates a fascination with visual media, making this vocational training a natural fit for you. As a Media Designer, you can use your skills to create engaging content for social media, websites, or advertising campaigns.

Career opportunities: After completing Media Designer training, you can work as a graphic designer, digital media specialist, or multimedia artist. You may find employment in advertising agencies, design studios, publishing houses, or film production companies. For example, you could work as a social media content creator developing visual content for brands or a web designer designing interactive websites.

Further similar vocational training:

- Audiovisual Media Designer
- Web Developer
- Advertising Specialist
- Digital Marketing Manager
- Game Designer

3. Vocational training: Music Retail Specialist

Description: Music Retail Specialist vocational training focuses on working in music stores, managing inventory, assisting customers, and promoting music products. You will learn about music instruments, accessories, merchandising techniques, and customer service. Typical course content includes product knowledge, sales techniques, inventory management, and music industry trends.

Explanation: Music Retail Specialist is a great option for you because it combines your love for music with retail skills. Your favorite school subjects, music and sports, indicate a passion for music-related activities, making this vocational training a good fit for you. As a Music Retail Specialist, you can share your knowledge and enthusiasm for music with customers while working in a dynamic retail environment.

Career opportunities: Upon completing Music Retail Specialist training, you can work as a music store manager, sales representative, or product specialist. You may find employment in music stores, instrument manufacturers, online retailers, or music distribution companies. For example, you could become a music store owner managing your own retail business or a product specialist promoting music equipment to musicians.

Further similar vocational training:

- Sales Manager
- E-Commerce Specialist
- Visual Merchandiser
- Customer Service Representative
- Retail Marketing Coordinator

Summary:

I, the AI assistant, have carefully considered your hobbies, favorite school subjects, and areas of boredom in order to create a personalized consultation text for you. I have tailored the information to align with your interests in dancing, watching TV, and using Instagram, as well as your favorite school subjects of music, sport, and ethics.

In the consultation text, I emphasized opportunities that involve theoretical work rather than practical applications, taking into account your dislike for math and cars. I have provided options that cater to your specific preferences to help guide you in choosing a suitable path for your future studies or career.

However, it is important to note that while my suggestions may align with your interests, it is still crucial to discuss your options and preferences with a career advisor. They can provide additional insights and guidance to ensure you make the best decision for your future.

Best regards and good luck on your further career path!

Your AI assistant.
